

The Fractalist: Memoir of a Scientific Maverick

Filesize: 2.21 MB

Reviews

*This written publication is wonderful. It really is loaded with knowledge and wisdom You will not really feel monotony at at any time of your time (that's what catalogues are for relating to if you ask me).
(Desmond Becker)*

THE FRACTALIST: MEMOIR OF A SCIENTIFIC MAVERICK

Pantheon, 2012. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "This is a wonderful memoir. It is personal, occasionally opinionated, at times beautifully written, and with a narrative encompassing a wide range of times, places, and people." -Mark McCartney, London Mathematical Society "Mandelbrot changed the way we look at a wide range of random phenomena from commodity prices to the shapes of mountains, rivers, and coastlines. The memoir captures the enthusiasm as well as the memories of a visionary who loved nothing better than studying complex multidisciplinary concepts." - Publishers Weekly "'When I find myself in the company of scientists,' W. H. Auden wrote, 'I feel like a shabby curate who has strayed by mistake into a drawing room full of dukes.' Benoit B. Mandelbrot (1924-2010) had the kind of beautiful, buzzing mind that made even gifted fellow scientists feel shabby around the edges. The Fractalist evokes the kinds of deceptively simple questions Mandelbrot asked--'What shape is a mountain, a coastline, a river or a dividing line between two river watersheds?'--and the profound answers he supplied." - Dwight Garner, The New York Times "Memoir of a brilliant mathematician who never thought of himself as a mathematician. charmingly written." - Kirkus "Benoit Mandelbrot was the one who let us appreciate chaos in all its glory--the noisy, the wayward, and the freakish, from the very small to the very large. He invented a new and slightly nebulous field of study--a kind of geometry, for want of a better description--and he invented that recondite name for it, fractal. "Clouds are not spheres --the most famous sentence he ever wrote-- mountains are not cones, coastlines are not circles, and bark is not smooth, nor does lightning travel in a straight line. "They are all fractal. Clouds, mountains, coastlines, bark, and lightning:...
