## The Journal of the Royal Agricultural Society of England

By John Murray

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 288 pages. Dimensions: 9.7in. x 7.4in. x 0.6in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1845 edition. Excerpt: . . . of lime 17, magnesian phosphate of ammonia 55, silica 07, and combustible organic matter 106. The ammonia in the soluble portion was in the state chiefly of phosphate; there was merely a faint trace of oxalate of ammonia. E. African Guano. --Among the many samples of African guano which I have had occasion to analyze for the importers, none has contained any appreciable quantity of uric acid, or of consequence of potential ammonia. The best afforded me 10 per cent. of ready-formed ammonia, existing chiefly in the state of a phosphate, though they all contain carbonate of ammonia, and have of consequence an alkaline reaction. The said sample contained 21 5 of moisture, separable by a heat of 212 F. Its specific gravity was so low as 157, in consequence of the large proportion of moisture in it. It contained 23 per cent. of subphosphate...
